

# Partner Meeting 5

Tampere, Finland

10<sup>th</sup> and 11<sup>th</sup> October, 2016

# SPAIN Pilot Country Update

Galicia -SPAIN

# Galicia Spain update

- In Galicia - Spain 26 schools ( 5 Primary, 19 Secondary and 2 both Primary and Secondary) will take part in the piloting.
- Model of implementation: it combines 1 teacher in 2 classrooms and 2 teachers one in each classroom.
- We will use the Mahara platform
- Teacher meetings, CPD workshops in April and open call to enrol schools.
- Trainers, evaluators, observers, scorers, case studies are set
- Some examples of learning designs have already done
- It has not been easy to get the schools because Galicia has a disperse population with many one line schools

- 1<sup>st</sup> step :get familiar with Mahara (learning by doing)
- 2<sup>nd</sup> step: presentation of ATS2020 project
- Use of e-portfolio for transversal skills assessment
- Start the piloting and giving schools support

# At present

- Next week: face to face meeting with all schools involved to give a broader information on the piloting: calendar, documents, and overall view of what we will all learn.
- Webinars on a monthly basis.
